CENTURY POLYMERS

MOULDING BEYOND YOU EXPECT

About Century Polymers

Established in 2004, Century Polymers is a trusted leader in the manufacturing of premium, unbreakable plastic containers for packaging laddoos, dry fruits, spices, baklava, chocolates, sweets, pastries, and cakes. With a commitment to innovation and quality, we offer packaging solutions that combine aesthetic appeal, functionality, and exceptional durability — trusted by top Indian and international brands.

From humble beginnings in a 200 sq ft rented space, we have grown into a 20,000 sq ft production facility equipped with fully imported high-precision machinery from Japan Taiwan and USA. Our advanced infrastructure enables us to produce over 25 lakh containers per month with unmatched consistency, finish, and strength.

We offer over 400+ unique container designs — from partition boxes to custom cavity trays — all made using food-grade, recyclable plastic that's built to endure long-distance transportation without breakage. Our containers are designed not just to protect, but also to enhance the presentation of every product they carry.

Today, Century Polymers proudly serves industry leaders like Lotte India, Dukes, Karachi Bakery, and Haldiram's, and continues to expand across India and global markets.

CENTURY POLYMERS

MOULDING BEYOND YOU EXPECT

Packaging That Preserves Taste, Delivers Elegance

At Century Polymers, we specialize in crafting premium plastic containers designed to showcase and protect a wide variety of delicacies — from traditional laddoos and dry fruits to rich baklava, chocolates, pastries, cakes, sweets, and even everyday spices.

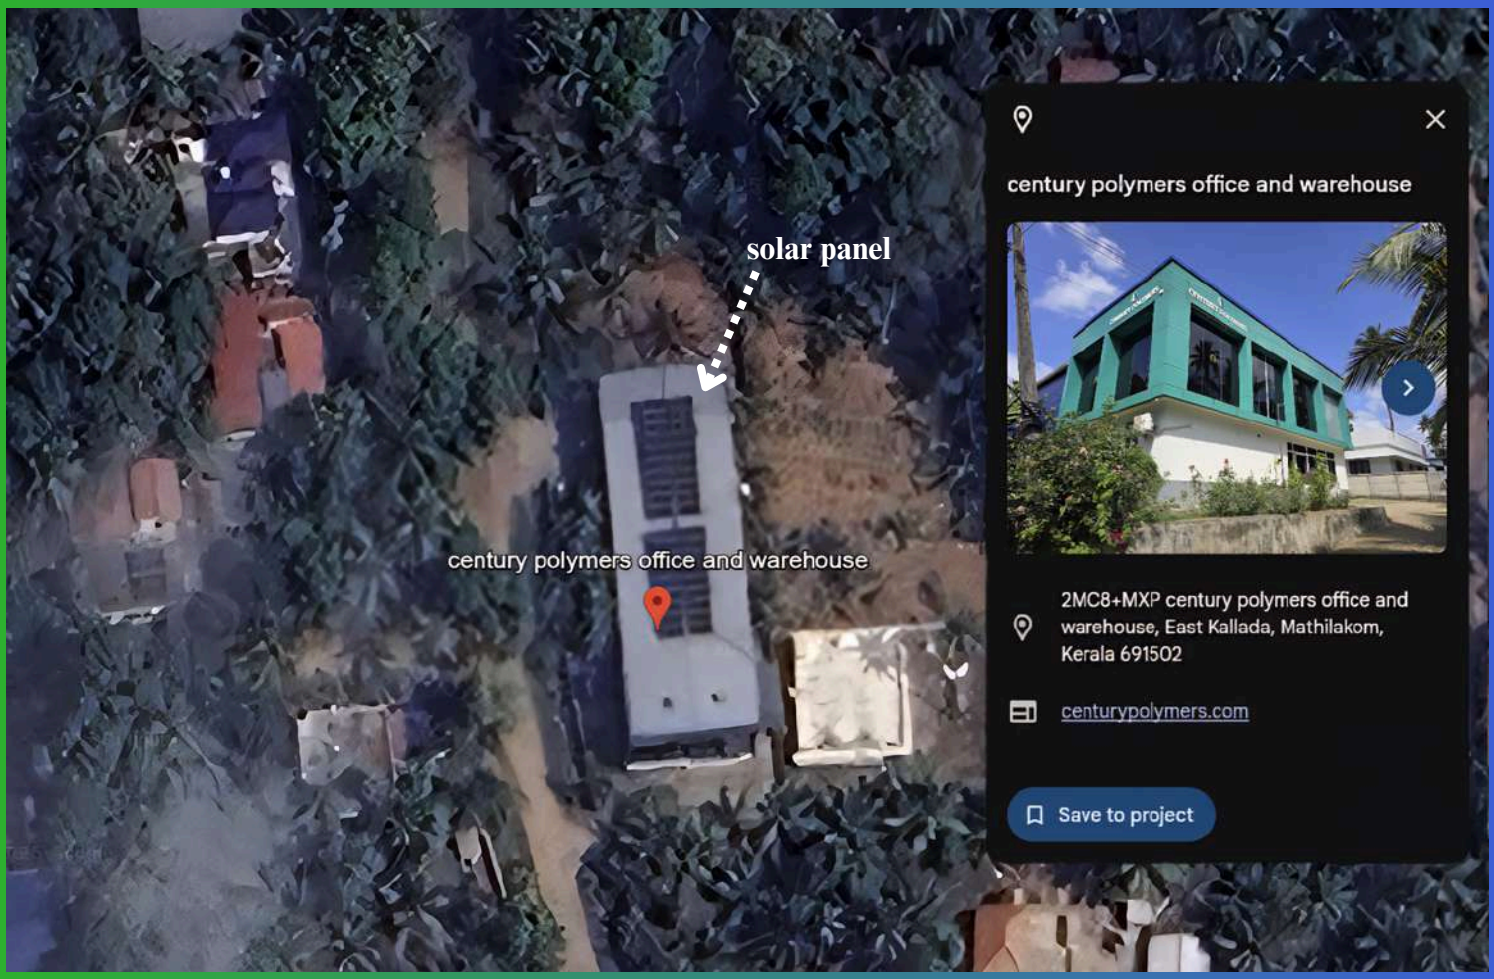

Each container is made using food-grade, unbreakable plastic, engineered to keep your products fresh, safe during transport, and visually appealing on the shelf. Whether you're packing festive sweets or daily essentials, our containers offer the perfect blend of durability, functionality, and presentation.

With over 400+ designs, we offer cavity trays, partition boxes, cake domes, and custom-fit solutions tailored for every need — helping your products stand out and stay protected, every step of the way.

CENTURY POLYMERS

MOULDING BEYOND YOU EXPECT

Solar Sustainability Impact – Century Polymers

At Century Polymers, sustainability is not a trend — it's our foundation.
With a powerful rooftop solar setup generating 104 kWh per day,
we offset over 3,100 kWh monthly, reducing CO_2 emissions by 2.2 tonnes —
the equivalent of planting nearly 100 trees every month.
This initiative powers our facility with clean energy and reflects our
commitment to eco-friendly manufacturing, reduced carbon footprint,
and a greener future for generations to come.

Environmental Impact:

According to the U.S. EPA Greenhouse Gas Equivalencies Calculator:

➡ 1,000 kWh of solar power = offsetting approx. 709 kg of CO_2 emissions

➡ So, 3,120 kWh/month offsets approx. 2,212 kg of CO_2

✅ That's equivalent to planting ~100 mature trees every month

(Each tree absorbs approx. 21 kg of CO_2 per year, or ~1.75 kg/month)

CENTURY POLYMERS

MOULDING BEYOND YOU EXPECT

Advanced Manufacturing with Imported Machinery

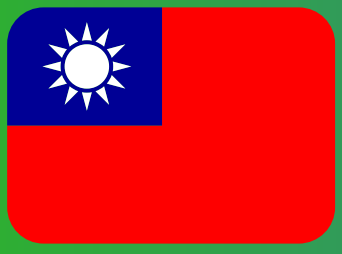

At Century Polymers, we believe that world-class packaging begins with world-class equipment. That's why our production facility is equipped with fully imported, state-of-the-art injection molding and thermoforming machines from leading manufacturers such as Victor Taichung (Taiwan), Niigata (Japan), and Ferromatik Milacron (Europe).

These machines offer:

- Unmatched Precision – for consistent product quality and tight tolerances
- High-Speed Production – allowing us to manufacture up to 25 lakh containers per month
- Energy Efficiency – reducing production costs while being environmentally conscious
- Clean, Food-Grade Output – ideal for packaging sweets, chocolates, dry fruits, and spices

Our investment in the best global machinery ensures that every container we produce meets the highest standards of durability, clarity, and safety.

CENTURY POLYMERS

MOULDING BEYOND YOU EXPECT

Welcome to the official product brochure of Century Polymers, your trusted partner in premium plastic packaging solutions.
This brochure is designed to provide a comprehensive overview of our wide range of unbreakable, transparent containers—tailored specifically for sweets, chocolates, dry fruits, baklava, pastries, and more.
Each product listing in this brochure includes:

- Product Code Name – Please refer to this code when placing an order or inquiry.
- Sketch Image – Technical drawing of the container for reference.
- Packed Image – Showcasing the container filled with actual products.
- Empty Container Image – For clear visualization of size and structure.
- Dimensions & Volume – Mentioned precisely for each model.
- Carton Packing Capacity – Number of units that fit in one master carton.
- Individual Container Weight – Useful for calculating shipping and handling.
- Use Case Scenarios – Suggested applications for each model (e.g., 9-cavity laddoo, baklava , assorted dry fruits, etc.).

📩 To place an order or request pricing, please mention the product code of the container in your inquiry. This ensures faster and more accurate processing.

CENTURY POLYMERS

MOULDING BEYOND YOU EXPECT

Each of our containers is thoughtfully designed with a premium golden bottom cavity that securely holds Laddoos, Baklava, or other delicate sweets in place, preventing them from shifting or breaking during transit. The crystal-clear top cavity not only enhances visibility for an elegant presentation but also serves a functional purpose — it prevents sweets from sticking to the lid, seals in syrups or moisture, and ensures that your products remain fresh, hygienic, and visually appealing when they reach the customer. This smart two-part design makes our containers ideal for gifting, retail display, and safe transportation across any distance.
